PROFESSIONAL SKILLS

Web: Moodle, PHP, Angular , Java Script, AJAX, JQuery, WordPress, PrestaShop, OpenCart, CSS, HTML.
Office: MS Word, MS Access, MS PowerPoint

WORK EXPERIENCE

Take2 Technologies – BHILWARA   **Feb 2022 – Present**
Designation: Sr. Software Developer

RESPONSIBILITIES:
- Web designing and development.
- Enhancement of our moodle quiz access proctoring plugin.
- Customize Moodle plugins, modules and themes to align with specific clients requirements.
- Integrate APIs with the LMS.
- Design, Development and implementation of new features, functionalities and enhancements within the moodle platform.
- Handling of day-to-day technical issues on-site.

PROJECTS:
- https://www.ostadelahi-indepth.com/login/index.php :
  Conversion website from web version to app by creation multiple API
  Migration of Moodle from 1.9 to 4.1 with many custom changes, code design changes, API changes etc. Built android and IOS app for Moodle following its design and development concepts.

- https://moodle.org/plugins/quizaccess_quizproctoring :
  Proctoring quiz access rule plugin offers quiz surveillance through the proctoring interface. It helps in a candidate's identity verification and proves fruitful in generating warnings for unfair participation. It monitors the quiz by capturing the user's activity with the webcam at custom-specified intervals. It executes identity verification by checking the candidate's image against the proctoring image captured during the quiz.

- https://unitu.io/ *Together We Changed – Moodle Notification Plugin:*
  Built a custom plugin that integrates with Unitu.io's API to display authenticated notifications within Moodle. The plugin allowed administrators to deploy course-specific message blocks, improving student engagement and feedback visibility.

- https://shala.frendy.in/ :
  Frendy is an eCommerce platform. FrendyShala gives training to their partners. FrendyShala eLearning Platform is mainly to impart training in multiple languages through videos, tests and also handle certificate, prize, badges. Wallet management APIs are also used in this project after every course completion.
